About This Game

SEGA's collection of Mega Drive & Genesis Classics comes to a new generation, now updated with even more features!

Over 50 titles across all genres from all-time classics like Sonic and Streets of Rage 2 to deep RPGs like the Phantasy Star series; arcade action, shooters, beat 'em ups, puzzlers, old favourites and hidden gems.

New features bring modern convenience to the classics. Save your game at any time, rewind those slip-ups, or customise your controls. Earn bragging rights with online multiplayer and achievements.

The largest collection of retro classics in one great package!

New Features

- Two-player online multiplayer
- Leaderboards
- Challenge Modes – short challenges give old favourites a new twist
- Additional graphics filters & border options
- ROMs from other regions for games with significant differences

-
- Fast-forward and rewind
 - Sprite limit disable
 - Mirror mode – reverse the screen for a fresh challenge
 - VR – immerse yourself in the retro-themed bedroom and play on a virtual CRTV or go big with full screen

Note: VR features require a VR headset.

Over 50 classic games.... Yeah I'll stick to emulators. Try harder, Sega.. If you're over a certain age you want this. And the mods... want to play Battletech Genesis? It's here.. some excellent games are not in the collection

Alien 3

Demolition Man

Jim

Jim 2

Mortal Kombat 3

you name it, only games which were not played commonly on Genesis are here

. I'd say this is a 6V10 series because of the bad ui design but tolerable emulation of the games. and keep in mind I said tolerable, not good.
