The HSE Code of Practice for Health and Safety in Tunnelling in the Construction Industry was published in January 2016 and was the result of extensive consultation with industry and HSE to ensure it meets the needs of the industry. It provides guidance to those who are responsible for the health and safety of people in the construction industry in relation to tunnelling. It includes recommendations about the safe construction of tunnels and how to manage risks to health and safety. To download the Code, click on the link below.
